

TWIN MOONS - PROGRAM OUTLINE

Platinum-Gold Light Clearing Program

Using appropriate Spiritual / Energetic Hygiene practices on a daily basis is an effective means of maintaining energy body health in a general way (for more information on Spiritual / Energetic Body Hygiene please refer to the “Twin Moons Info - Spiritual Hygiene.pdf”), however any pre-existing implants or attachments are unlikely to be detected or removed via these practices.

This program represents a suitable set of practices, developed in collaboration with my dear **Trinity Stars** collective family members ‘**Sitara LightBringer**’ & ‘**John Mann**’ - this program is known as the Platinum-Gold Light Clearing Program (or simply **PLC** for short).

The aim of this Platinum-Gold Light Clearing program is to extend use of these techniques to as wide a group as can be reached world-wide, in order to facilitate improvements in individual Mind / Body / Spirit health, improve energy body effectiveness & share this knowledge broadly.

The **PLC** program contains 4 competency levels with assessment tasks for advancement. Not all learners will feel a need to advance to Master level, with some being satisfied to reach Adept or Full Practitioner level.

Platinum-Gold Light Clearing - Practitioner levels:

1. Platinum-Gold Light Clearing [Introductory] - (**Aspirant**)
2. Platinum-Gold Light Clearing 1 - (**PLC - Adept**)
3. Platinum-Gold Light Clearing 2 - (**PLC - Practitioner**)
4. Platinum-Gold Light Clearing 3 - (**PLC - Master**)

The introduction to the Platinum-Gold Light Clearing Program describes some of the more common causes / sources of Energy Body implants & attachments (organic & non-organic), followed by an overview of the approach taken for identification, removal, transmutation & return to Source.

For further information relating to activities, learning & assessment tasks at offered at each level of this program please refer to the section titled ‘**Course Structure & Teach/Learning Elements**’ on page 6 of this course guide.

TWIN MOONS - PROGRAM OUTLINE

Sources & Causes of Entity or Non-organic Attachments

As a being of energy (light) it can be considered that in much the same way that the Human body may come into contact with an infection by bacteria, virus & other organic organisms (which may be considered Attachments) or a splinter, nail or other foreign matter (Implant), that your subtle Energetic Bodies can experience similar infections. Ranging from relatively benign to extremely Malignant in nature these attachments can be classified as Organic or Non-Organic.

Some attachments are self-imposed/caused, some are random but non-malicious, some are agreed to prior to incarnation, some are mid-incarnation agreed/contracted, while others may be foreign/invasive in nature either in alignment with a collective agreement (so as to technically not be in violation of your free will), while others are seemingly in total violation of sovereignty.

Organic Attachments (Entity)

A number of types of entity attachments may occur ranging from inter-personal energetic cords/tethers to potentially malicious entity attachments, each requiring a subtly different approach to removal. Some of the most frequent categories of attachment include:

- **Human inter-personal energetic cords** - these usually develop as a consequence of emotional / relationship imbalances during low vibrational states - such as periods of uncertainty, dependency, co-dependence, fear, anxiety.
- **Soul Fragment attachments** - these may come about through being in close physical or emotional proximity to an individual who experiences a highly traumatic experience, at a time when your own energy 'envelope' is extended & outer layer very porous 'usually through your own challenges, experiences & empathy for the individual'. This may be considered a persistent energetic residue from the individual.
- **Discarnate attachments** - many would experience the chill down the back of the neck or hairs raising on the arms when you walk into a 'inhabited' room. In many cases these are individuals who are 'In Between' this 3D world & their higher dimensional plane of existence. While many will remain in a location, some will feel drawn to your 'or your families' energy. This provides them familiarity, comfort and for some - energy.

TWIN MOONS - PROGRAM OUTLINE

- **Thought Form / Hereditary Attachments** - thought forms are essentially thoughts (intent) imbued with energy (empowered) so as to result in a particular outcome. Historically these thought forms may be considered 'Hexes', 'Curses' when intentionally created for a malicious intent. In other cases, soul fragments may remain as 'thought forms' attached to people, places or families. Generally serious emotional states surround these fragments and in some cases an energy residue can focus on an entire family line, so as to become a hereditary issue.
- **Greater Consciousness Constructs (Akash, Programs, Contracts)** - given the 'holographic' simulation/program nature of this 3D reality - at times fundamental elements can become added to or adjusted in the Human genetic template stored in the personal Akash or as a programmed construct that causes a restriction, blockage or change that impacts either individuals, groups, families or entire populations. By Universal law free will cannot be abridged in these cases, hence some agreement had been reached at some time permitting this intrusive change - however contracts relating to these attachment/modifications can be adjusted, negated or removed..
- **Hitch-Hiker Entity attachments** - at times entities may become entangled to entrained to your energetic field, thus 'travelling' with you as a passenger. These are often non-intentional attachments, that generally mean no hard, however their presence will disrupt normal energetic flow patterns (simply by their presence). An example of this may be elemental beings such as Earth, Air, Fire or Water elementals, native to this 3D environment but normally existing in a sub-frequency of the normal 3D frequency spectrum.
- **Mild Foreign Entity attachments** - This category of entity attachment is normally represented by a construct of the false light (Parasitic Construct) that has attached to your subtle energy body. These entity attachments may have become entangled with you as a part of the incarnation process or at any time since. These mildly disruptive entities may take the form of a simple "Chatter Box" construct, designed to cause ongoing/persistent noise or some other distraction. Some such attachments may engage with lower emotional states as an amplifier or thought chaos source.

TWIN MOONS - PROGRAM OUTLINE

- **Foreign Entity energy draining attachments** - an intrusive and debilitating form of construct of the false light (Parasitic Construct) that is attached to your energy body as a drain on your natural source/light, these often drain small amounts of energy throughout their tenure, however when they encounter a pre-defined trigger, these switch into a high-drain mode.
- **Foreign Entity Tracking & Control attachments** - one of the most intrusive forms of construct of the false light (Parasitic Construct), these entity attachments are inserted so as to track ones movements & when triggered to influence the individual by a number of means (including insertion of negative thoughts, causes of depression, constructing high anxiety states & phobias).

NB: These last 3 categories of entity attachment are general in nature, and many other roles may be played by these semi-conscious constructs. For more information relating specifically to the False Light or Parasitic Construct please inquire as to a private consultation.

Non-Organic Attachments or Implants (Blocks, Inhibitors, Trackers, Recorders)

Just as for Organic attachments, a large number of types of non-organic attachments (or more correctly considered implants) may occur, ranging from simple energetic constructs to complex artificial constructs (which may be considered sophisticated devices in their own right). Some of the most frequently encountered categories of Implant include:

- **Self-Imposed Energetic or Memory blocks** - These self-imposed or carried blocks generally come about through some trauma or negative experience. As a result, either to 'remember' that we all have shadow aspects or in a response to a situation, these blocks may remain unidentified, until it is appropriate that they be removed.
- **External Memory blocks** - external parties may insert blocks to prevent recall of events or experiences with certain energies such that the techniques known & demonstrated cannot be repeated until the block is removed.

TWIN MOONS - PROGRAM OUTLINE

- External Energetic blocks - external parties may insert blocks into one or more of your energy bodies so as to reduce the flow of energy/light to & from that body. A good example may be to restrict emotional range by inserting a block, or to reduce likelihood of Astral travel by placing a block to the Astral body. Full block is very uncommon, however a form of 'restriction' is possible.
- Seals (Jahovian J-Seals, Metatronic Implants, Zeta Seals, Crown of Thorns) - a variety of inherited restrictions, blockages & limiting factors relate to changes/invasions that have been done to the Earth & as we are biologically as well as energetically linked to Earth/Gaia, any limit placed on the planet is placed on us.
- Tracking Bio-Energetic constructs (Chip's) - Biochips are a mechanical program constructs using nano-technology. Chips can be inserted subdermally, in muscles, bones or organs. These nano-chips respond to the microwave frequencies that saturate our environment in much the same way as an RFID chip (commonly seen attached to garments at clothing stores)
- Behaviour or Thought Inhibitors - these Biochips are mechanical program constructs based on nano-technology that modify behaviour in a number of ways. Some are directly inserted into a lobe of the brain, that links via nano-tubules to the key neural pathways, restricting thought freedom or behaviour. Others are inserted into close proximity to the physical locations of Chakras so as to restrict energy flow to/from the associated subtle body.
- Energy Inhibitors - Similar to the crown of thorns situated about the crown chakra, these nano-devices interfere with Chi flow within the body to a greater or lesser extent. Sometimes seen as a black cobweb/tendrils construct that grows to impede energy flow through key meridians.

TWIN MOONS - PROGRAM OUTLINE

- Tailored (Specific Purpose) Constructs - such as chakra taps, Bio-Morphic Web, Crown chakra cap - a variety of additional specific purpose constructs can be created using these nano-tech approaches. These must be handled on a case by case basis (generally with guidance of your higher self).

Course Structure & Teach/Learning Elements

The Introductory module represents the **Aspirant** level & is a pre-requisite for **PLC Adept, Practitioner** or **Master** level in Platinum-Gold Light Clearing & Entity Extraction.

Platinum-Gold Light Clearing - Practitioner levels:

1. Platinum-Gold Light Clearing [Introductory] - (**Aspirant**)
2. Platinum-Gold Light Clearing 1 - (**Adept**)
3. Platinum-Gold Light Clearing 2 - (**Practitioner**)
4. Platinum-Gold Light Clearing 3 - (**Master**)

Aspirant

PLC Aspirant level training includes:

- PLC Prep activities
- Scanning techniques
- Standard Clearing & Extraction, followed by **PLC Adept** activities outlined below including case documentation methodology & follow up).

Adept

PLC Adept level training consists of:

- advanced instruction in removal / extraction techniques
- concluding in 2 documented extractions (from self & other) & pass level Assessment.

This will represent achievement of **PLC Adept** grading (with associated Activation). This module also represents a pre-requisite for **Trinity Star Program** admittance at **Aspirant** level.

©Universal Copyright 2019 is authorized here. Please distribute freely as long as both the author [Sean \(Twin Moons\) Murray](#) and www.TwinMoons.Net are included as the resource and this information is distributed on a non-commercial no charge basis.

TWIN MOONS - PROGRAM OUTLINE

Practitioner

PLC Practitioner level training includes:

- Detailed knowledge deep-dive relating to False Light (Parasitic Construct) attachment analysis
- Seal removal techniques
- Advanced Scanning techniques
- Expert level Clearing & Extraction techniques including remote clearing

This will represent achievement of **PLC Practitioner** grading (with associated Activation). This module also represents a pre-requisite for **PLC Master** level admittance.

Master

PLC Master level training includes:

- Scan supervision techniques (remote accompany to Adepts or Practitioners)
- Adept & Practitioner Testing requirements
- Group Clearing & Extraction techniques including remote group clearing
- Advanced presentation techniques, class teaching preparation

This will represent achievement of **PLC Master** grading (with associated Activation). This module also represents the pre-requisite for **endorsement & certification** of Adepts & Practitioners.

Next Steps:

For more information relating to the Platinum Gold Light Clearing program, please contact Twin Moons via the Website (<https://twinmoons.net>) or by email (info@twinmoons.net).
