## Unique Website Development - Specialising in Esoteric & Consciousness

### Personalised Website Design & Development

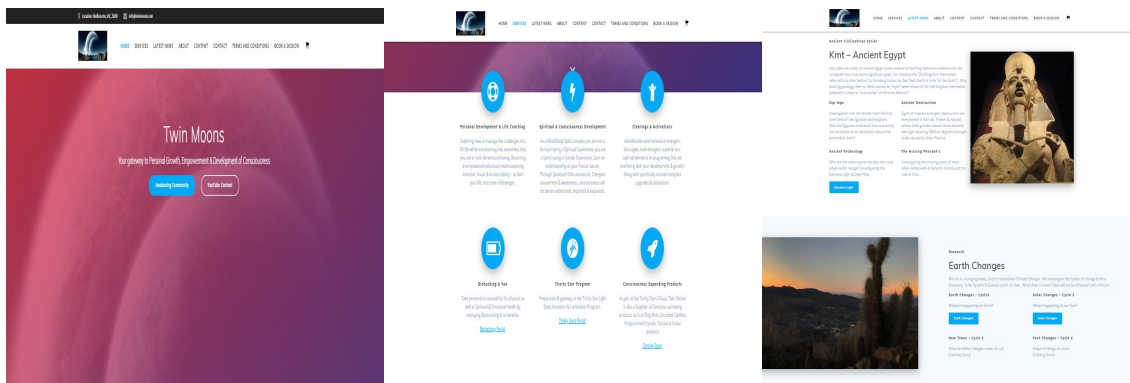

Offering boutique & bespoke Website design & development services (using WordPress & other leading web development technologies), with over 25 years experience in the Information Technologies sector, delivering website & IT services for such organisations as Village Roadshow, as well as experience supporting Networks & IT Operations for some of Australia's leading retail chains, combining my understanding of the Esoteric & Awakened world. Leverage my experience to work with you to deliver the outcome you want, that contributes to the entire community.

### Digital eMarket-Place integration with online eCommerce

Designed by individuals who believe in Fair energy exchange & enlightened commerce - based on more than just making money. Understanding the balance needed & the technologies involved, we can deliver a right-sized solution that is not overly complex - and we will train you as part of the offering.

### Website Hosting & Support Services

On a more mundane note, we recommend Bluehost for all our Hosting and online services, however can work with your existing provider or assist with upgrade or migration of your existing websites or online services. On a budget - we understand & will work with you (Only pay for what serves).
